Basic Information

- Place of Origin: China
- Brand Name: CX
- Certification: CE, RoHS, ISO9001
- Model Number: CX-FT
- Minimum Order Quantity: 50 pieces
- Price: consult prices online
- Packaging Details: consult online
- Payment Terms: T/T

FT-20-1

Product Specification

- Rated Voltage: 12V/24V Auto
- Rated Charge Current: 30A/40A
- USB Output: 2A/5V
- Product Size: 133×93×37 Mm
- Protection Grade: IP20
- Weight Per Carton: 17.7 Kg (40 Pcs)
- Highlight: 24V solar power control,
12V solar power control,
Commercial mppt solar charger

Product Description

12V 24V Solar Power Control for Residential and Commercial Charge Controllers

Product Description:

This Solar Charge Controller is designed to provide optimized control for solar power systems. It features intelligent protection mechanisms, including over-current, over-voltage, over-temperature, and short-circuit protection, ensuring your solar system's longevity and efficiency. Equipped with an adjustable LCD display, temperature compensation, and SOC protection, this controller enhances user convenience and system reliability. With USB output functionality, it allows for easy device charging. The controller is compact and durable, suitable for both residential and small commercial solar installations.

Application:

Ideal for various off-grid solar applications, including residential solar systems, camping setups, and mobile solar installations. The robust features ensure it can handle multiple battery types, such as lithium-ion and lead-acid, while optimizing solar charging efficiency for prolonged battery life. It is widely used in energy storage systems, portable solar setups, and off-grid backup systems.

Shipping Methods

Supports global air and sea shipping.
