

User-Friendly Design and Easy Installation Hybrid Inverters for Solar Energy Systems

Basic Information

- Place of Origin: China
- Brand Name: JEK
- Certification: CE
- Model Number: HI2
- Minimum Order Quantity: 10 units
- Price: consult prices online
- Packaging Details: consult online
- Payment Terms: T/T

Product Specification

- Capacity: 5000WH
- Battery Type: 25.9V 188Ah LiFePO4 With Smart BMS
- Output Voltage: 220V/230VAC $\pm 5\%$
- Solar Charging Input: 1500W
- Operating Temperature Range: -10°C To $+50^{\circ}\text{C}$
- Highlight: 220v hybrid inverters,
220v mppt solar charge controller

Product Description

User-Friendly Design and Easy Installation Hybrid Inverters for Solar Energy Systems

Product Description:

This hybrid inverter system provides a powerful and reliable energy solution for residential and commercial use. With a capacity of 5000WH, it integrates a high-efficiency MPPT controller and a 25.9V 188Ah LiFePO4 battery, ensuring long-lasting performance and safe energy storage. Its pure sine wave inverter delivers stable 220V/230VAC output at 50Hz, offering compatibility with a wide range of appliances. The unit supports up to 1500W of solar charging input, making it an ideal choice for solar energy systems. The user-friendly LCD screen allows for easy monitoring, while its wall-mounted design ensures simple installation.

Application:

Perfect for homes and small businesses, this hybrid inverter system is designed for off-grid and grid-tied solar energy systems. It provides backup power in the event of outages and ensures uninterrupted energy supply from both solar panels and the battery bank. The system is ideal for environments where energy security and sustainability are critical, offering seamless integration into renewable energy solutions.

Shipping Methods

Supports global air and sea shipping.
