

Commercial Residential Tile Roofs Aluminum Alloy Mounting Systems

Our Product Introduction

for more products please visit us on fuhaosolar.com

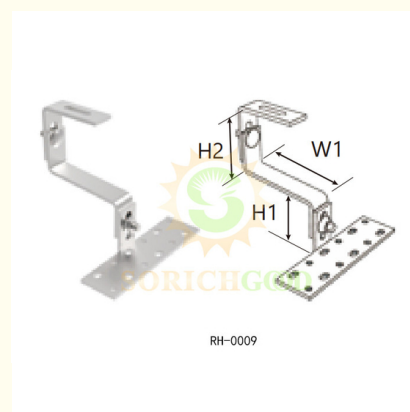

Basic Information

- Place of Origin: China
- Brand Name: XMKS
- Certification: CE UL
- Model Number: TILER
- Minimum Order Quantity: 100 sets
- Price: consult prices online
- Packaging Details: consult online
- Payment Terms: T/T

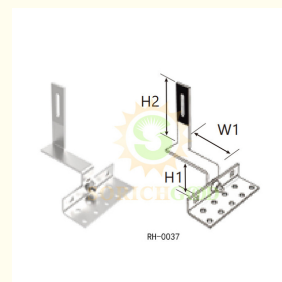

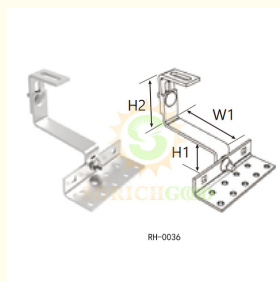

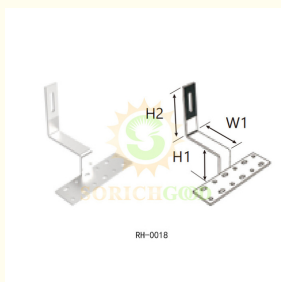

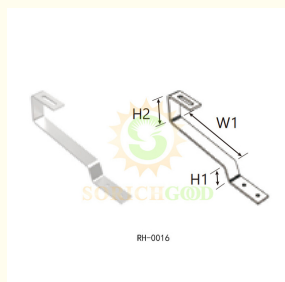

Product Specification

- Material: Aluminum AL6005-T5 / Stainless Steel SUS304
- Wind Speed: Up To 60 M/s
- Snow Load: Up To 1.4 KN/m²
- Warranty: 10 Years Product Warranty, 25 Years Service Life
- Applicable Module: Frame Or Frameless
- Standard: AS/NZS 1170, JISC8955-2017 And Other International Standards
- Highlight: **Commercial solar panel roof mounting brackets, T5 solar panel roof mounting brackets, Aluminum solar mounting brackets**

Product Description

Durable Aluminum Alloy Mounting Systems for Commercial and Residential Tile Roofs

TILE ROOF MOUNTING SYSTEM

- 1 Suitable for both commercials and residential roof applications.
- 2 High grade anodized aluminum and stainless steel components.
- 3 Less accessories for easy installation, save the construction time and cost.

Product Description

This aluminum alloy mounting system is designed for both commercial and residential tile roof applications. Made from high-grade anodized aluminum (AL6005-T5) and stainless steel (SUS304), this mounting system offers excellent durability and corrosion resistance. The system's modular design reduces the number of accessories required, making installation easier and faster, saving both construction time and costs. With a maximum wind resistance speed of up to 60m/s and a snow load of 1.4kN/m², it ensures reliable performance in a variety of environmental conditions. The product meets international standards such as AS/NZS 1170 and JISC8955-2017, with a 10-year warranty and a 25-year service life.

Specifications	Material	Standard	Warranty	Wind Speed & Snow Load	Applicable Module
	Aluminum AL6005-T5 Stainless Steel SUS304	AS/NZS 1170 JISC8955-2017 and other international standards	10Years Warranty 25 Years Service Life	Up to 60m/s Up to 1.4 kn/m2	Frameor Frameless

Application

This aluminum mounting system is suitable for both commercial and residential roof installations. It is designed for framed or frameless solar modules and can be applied on tile roofs using wood screws or carriage bolts. The system is ideal for use in areas with high wind speeds or heavy snow loads, ensuring the secure attachment of solar panels in diverse environments.

Shipping Methods

Supports global air and sea shipping
