

## Versatile Galvanized Steel Mounting Systems for Solar Panel Ground Installation

### Our Product Introduction

for more products please visit us on [fuhaosolar.com](http://fuhaosolar.com)

#### Basic Information

- Place of Origin: China
- Brand Name: XMKS
- Certification: CE
- Model Number: HDGSGS
- Minimum Order Quantity: 500 pieces
- Price: consult prices online
- Packaging Details: consult online
- Payment Terms: T/T

#### Product Specification

- Corrosion Resistance: Hot-dip Galvanized Steel Construction Ensures Long-term Resistance To Rust And Corrosion
- Versatile Application: Suitable For A Wide Range Of Soil Types, Including Sandy, Mellow, And Uneven Terrains
- Adjustable Design: Available In Adjustable Versions, Ideal For Uneven Ground Installations
- Quick Installation: Simplified Structure For Fast And Easy Installation, Minimizing Labor Time
- Durable Construction: Heavy-duty Steel For Maximum Strength And Stability In Mounting Systems
- Customizable Sizes: Available In Various Diameters And Lengths To Meet Specific Project Requirements
- Highlight: **Galvanized Steel Mounting Systems, CE Galvanized Steel Mounting Systems, Galvanized Steel Mounting System**

## Product Description

### Versatile Galvanized Steel Mounting Systems for Solar Panel Ground Installation

#### Product Description:

The Hot-Dip Galvanized Steel Ground Screw is designed for efficient and stable ground mounting solutions, particularly for solar panel systems. This screw is constructed from high-quality Q235B and Q355B hot-dip galvanized steel, providing exceptional resistance to corrosion and a long-lasting lifespan in harsh environments. The ground screw is applicable to various soil types, including mellow, sandy, and uneven ground, making it versatile for different project needs. Its adjustable version with large blades offers added flexibility for installation on uneven surfaces, ensuring a stable and secure foundation. This ground screw system is pre-designed for easy installation, reducing construction time and labor costs significantly.

Material	Hot Dip Galvanized Q235B
Outer Diameter	76mm
Thickness	3-3.5mm
Length	1000-3000mm
Flange Diameter	200mm&220mm

Material	Hot Dip Galvanized Q235B
Outer Diameter	76mm
Thickness	3-3.5mm
Length	1000-3000mm
Flange Diameter	200mm&220mm
Nut Diameter	M12*35

Material	Hot Dip Galvanized Q235B Q355B
Outer Diameter	76mm,89mm,102mm
Thickness	3-3.5mm
Length	1000-3000mm
Flange Diameter	200mm&220mm

Material	Hot Dip Galvanized Q235B
Outer Diameter	76mm
Thickness	3-3.5mm
Length	1000-3000mm
Flange Diameter	200mm&220mm
Nut Diameter	M12*35

#### Application:

This ground screw is perfect for use in solar panel systems, fencing projects, and general construction that requires a durable and adjustable foundation. Its ability to be used in different soil types makes it suitable for a variety of settings, from flat to uneven ground.

#### Shipping Methods

Supports global air and sea shipping

**If you require more detailed product information or have customized requests, please contact us. Providing efficient service that satisfies our customers is our responsibility.**
