

MR-XY Solar Panel Washing Robot For Large Scale Solar Energy Operators

Our Product Introduction

for more products please visit us on fuhaosolar.com

Basic Information

- Place of Origin: China
- Brand Name: MSZN
- Certification: CE
- Model Number: UDSCR
- Minimum Order Quantity: 18 units
- Price: consult prices online
- Packaging Details: consult online
- Payment Terms: T/T

Product Specification

- Working Mode: Fully Automatic Up And Down Movement For Intelligent Solar Panel Cleaning
- Power System: Powered By Lithium Batteries And A Brushless Motor For Long-lasting Durability
- Cleaning Modes: Integrated Dry Cleaning And Water Cleaning Options For Various Environmental Conditions
- Automatic Edge Sensing Technology: Prevents The Robot From Sliding Off, Ensuring Safe Operation
- Adjustable Length: The Equipment Length Can Be Adjusted According To The Size Of The Solar Panel, Making It Adaptable To Different Photovoltaic Systems
- Remote Control: Supports Remote Control Operation With An Independent Power Supply, Suitable For Various Terrains And Weather Conditions
- Highlight: **solar panel washing robot, automated solar panel cleaning robot, robot for cleaning solar panels**

Product Description

MR-XY Solar Panel Cleaning Robot The Perfect Tool for Large-Scale Solar Energy Operators

Product Description:

The MR-XY Solar Panel Cleaning Robot is designed for large-scale photovoltaic arrays, capable of handling multiple rows of solar panels. The system is equipped with aluminum alloy support and a segmented splicing frame for easy transport and installation. It features an integrated dry and water cleaning mode, powered by a durable lithium battery and a brushless motor. The robot uses advanced edge sensing technology to prevent slipping and ensures safe operation across different conditions. The adjustable equipment length accommodates various solar panel sizes, making it convenient for multiple photovoltaic power station setups.
