

## Lightweight 0.16W Polycrystalline Silicon Panels For Battery Charger Gadgets

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: SZFC16
- Certification: CE
- Model Number: PCS
- Minimum Order Quantity: 388 pcs
- Price: consult prices online
- Packaging Details: consult online
- Payment Terms: T/T

#### Product Specification

- Power: 0.16W
- Voltage: 0.5V
- Current: 0.3A
- Efficiency: 17.4%
- Size: 52mm X 19mm
- Material: Polycrystalline Silicon
- Highlight: 0.16W Polycrystalline Silicon Panels,  
0.5V Polycrystalline Silicon Panels,  
0.3A polycrystalline silicon cell

## Product Description

### Lightweight 0.16W Polycrystalline Silicon Panels for Battery Charger Gadgets

#### Product Description:

This is a 0.16W colored polycrystalline solar cell designed for small-scale DIY applications. With its efficient energy conversion and lightweight design, this solar cell is ideal for powering small devices. The compact size of 52mm x 19mm makes it versatile for integrating into various projects, especially for educational or hobbyist applications. The cell is not flexible but delivers reliable performance with a 0.5V voltage and a 0.3A current output, providing 17.4% efficiency.

#### Application:

Perfect for DIY solar-powered projects, such as toy cars, battery chargers, or solar-driven gadgets. Its small size and lightweight features make it a popular choice for educational kits and small-scale renewable energy setups.

#### Shipping Methods

Supports global air and sea shipping

If you require more detailed product information or have customized requests, please contact us. Providing efficient service that satisfies our customers is our responsibility.
